

Timo Brandt is a singer songwriter from Dingden, a small village in Germany. People compare his music with artists like Passenger, Damien Rice, David Gray or Ben Howard. However, staying away from love songs, he aims at more of a spiritual intention, seeking true life between the daily hurries, god and some kind of sense in everything.

Once invited in by his catchy guitar style, hit by his unique voice, you will soon recognize that that this guy is not messing around. He released his first official album "Grounded" in 2018 via Timezone Records.

This year Timo Brandt has lots of new songs to share since his new album "All I Need To Know" has been released in autumn 2023.

The German magazine "Acoustic Guitar" wrote about his new songs: *"Again and again he succeeds in writing powerful but calm tunes and melodies, that one wants to sing along to without them being too intrusive."*
